The reality of wind is quite different. Drummond commented that the ability to summon a second wind allowed them to "call on cognitive resources they have that they normally don't need to use to do a certain task". The electric current produced by the generator flows through a cable running down through the inside of the turbine tower.

If you want to be official, you can pop for a tube of Polywatch, which was designed in Casablanca. On nights like that every booze party ends in a fight.

In this case, the turbine has a 45 percent  $\frac{7}{17}$  capacity factor. See Wind Basics of Wind Energy. Ambroggio Prize.
