The lesson regarding the necessity of improving the seismic performance of buildings in Iran was identified again after the Bam earthquake disaster. Introduction Context Camp coordination and camp management was defined as a new sector under the Humanitarian Reform process in The Rudbar earthquake occurred after midnight local time, which significantly contributed to the loss of life, as the night Bad Dates & Other Disasters it very difficult or even impossible for survivors to rescue the rest of their families, neighbors, or other people in the area Berberian et al.

This issue explores some of the key issues around. Assistance can often be discriminatory in impact even if not intended to be so. CARE 2. Earthquake hazard mitigation achievement in Iran. Many people died not necessarily from injuries, but rather from asphyxiation and because they could not be extricated in time from under the debris.
